Saturday 9th November
Saturday 30th November
Saturday 14th December**

**CPT total is
8 points.**

**10 am to 12 pm
EST**
**Lectures will be
1.5 hours long with
extra time allowed
for questions.**

AHA Webinars Presents The Liz Lalor Fertility Program

This AHA webinar is geared to qualified homoeopaths and students.

Liz Lalor's success speaks for itself with this program.

Liz has worked with 321 couples, and her homoeopathic program has helped create 279 babies.

Numerous homoeopaths follow this program and Liz has taught it world-wide.

The Liz Lalor Fertility Program is based on, and inspired by the ideology of Dr. Leon Vannier.

Homoeopaths will be clinically competent to treat infertility at the end of these lectures.

These series of webinars are also suitable for homoeopaths who have previously studied with Liz as she is planning to cover all the new changes to the program over the past two years.

1. This lecture series is aimed at covering all the difficulties homoeopaths have encountered in understanding the practical *difference* between the **Drainage and Lesional use** of the homoeopathic remedies.
2. Liz has allowed extra time to allow practitioners already using the program to ask questions.
3. This series of lectures will focus *in more depth* on infertility **case-taking**.
4. The lecture will provide a **deeper explanation and analysis of follow-up consultations**, and instruction on how to adjust remedies accordingly.
5. The medical knowledge imparted in this lecture will be a huge asset to clinical practice.
6. The practical case-taking knowledge imparted will be an invaluable guide for homoeopaths who are struggling to know how to take, and manage an infertility case.

This series of lectures will cover case-taking interview questions, follow-up consultation questions, PowerPoint, Vannier principles and the use of Drainage, Lesional, Miasmic, and Fundamental remedies, pathology testing for fertility, ovulation testing, physiology and the ovulation cycle, sex hormone cycle, rubric lists, Candida diet, and extensive nutritional advice, and information on the Australian Homeobotanical™ Drainage herb supplements for the woman and man.
