

KEYNOTE SPEAKER

Kim Elia is a renowned homoeopath, educator, historian and international speaker. He has been sharing homoeopathy with a worldwide audience for 32 years.

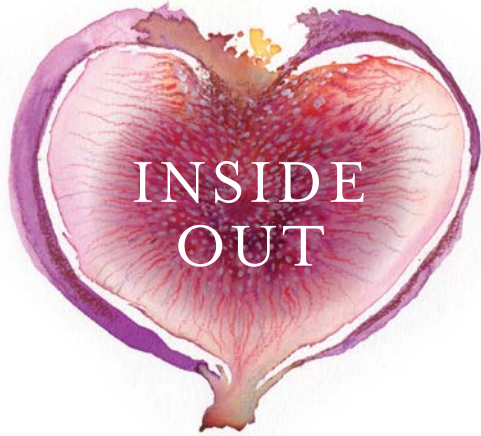

He was inspired to study homoeopathy when he read Gandhi's quote. "Homeopathy cures a greater percentage of cases than any other method of treatment. Homeopathy is the latest and most refined method of treating patients economically and non-violently."

He is the principal instructor and developer of the four-year classical homoeopathy program at the Hahnemann Academy in Tokyo and Osaka, Japan. He is known for his dynamic and distinctive teaching methods which reflect his immense knowledge and deep understanding of remedies and practice. Kim's intent is to bring the homoeopathic community together and to contribute to the training of effective practitioners who will bring homoeopathic medicine forward into the mainstream.

"Kim Elia is one of our most exciting and dynamic homoeopathy teachers. He is a literal wealth of information, not only in homoeopathic philosophy and practice but in the historical sequences that created homoeopathy. Highly recommended."
