## Presents

Fibonacci, Prequel  
to Core Treatment,  
Miasm discussion  
according to Dr. Joe

You can also take this  
opportunity to update your  
First Aid Certificate

## How did the Fibonacci Potencies come about Dr Joe?

The Fibonacci series of numbers is a sequence where each number is the sum of the two preceding numbers. For example, the series 1, 1, 2, 3, 5, 8, etc. This pattern appears in nature everywhere and presents a spiral shape.

The mathematical Fibonacci series appeared to be a universal law of nature that allowed to answer all the questions raised when looking for a safe and effective way of prescribing. This method is safe, fast, effective, deep acting and logical, based on science and not on opinions.

Creating this new method of homeopathic remedies administration started out of Dr. Joe's utter frustration at choosing the right potency. Everybody and his mother was teaching something different and everybody claimed success and exclusivity
